

Echoes Of Us

Ainhua

In every key on my piano
i Can see you'r face
every note I play
screams back your name oh

Left me wondering
where I went wrong
when your list
goes on and on oh

I hope my name echoes on your mind on repeat
i hope you hear my voice when you try to sleep
i hope you don't move on
even tho I will, Even tho I will

It didn't last for long
but thanks for every Elton song
we wont shred tears
i guess I was both your hopes and fears

Im not holding on
i'll go back home and find someone
but if you need me i'll here
i still care for your my dear

I hope my name echoes on your mind on repeat
i hope you hear my voice when you try to sleep
i hope you don't move on
even tho I will, Even tho I will

I hope my name echoes on your mind on repeat
i hope you hear my voice when you try to sleep
i hope you don't move on
even tho I will, Even tho I will
